

中欧班列(长江号)运营商—— 武汉汉欧国际物流有限公司

Wuhan Asia-Europe Logistics Co.,Ltd
China-Europe Railway Express (Wuhan) Operation Platform

Company Profile

In October 2012, Wuhan opened the China-Europe Railway Express for the first time, becoming the second city in China to practice the Belt and Road Initiative after Chongqing. Wuhan Asia-Europe Logistics Co., Ltd (abbreviated as WAE) is the operation platform of China-Europe Railway Express (Wuhan) . WAE is a wholly-owned subsidiary of Hubei Port Group and one of the seven initiators of the China-Europe Railway Express Transportation Coordination Committee. By the end of 2021, China-Europe Railway Express (Wuhan) had shipped 2,334 blocktrains, completed a freight volume of 200,000 TEUs, imported and exported goods valued at 59.4 billion RMB. The cumulative number of blocktrains shipped ranked fifth in China, and the actual load rate reaches 100%.

China-Europe Railway Express (Wuhan) transits through six ports including Alashankou and Horgos in Xinjiang, Erenhot and Manzhouli in Inner Mongolia, Pingxiang in Guangxi, and Mohan in Yunnan. At present, WAE is operating 30 stable cross-border transportation routes, radiating more than 30 countries and 70 cities in Eurasian continent. WAE has opened Regular Public Train from Wuhan to Duisburg and Hamburg (Germany, round-trip), Westbound Dedicated Train to Pardubice (Czech Republic, Foxconn), Gorzow (Poland, TPV), Durges (France, Decathlon), Lodz (Poland, Fenghuo Technology), Eastbound Dedicated Train from Mala (Poland, Volvo), Russia area (timber), Tashkent (Uzbekistan, cotton yarn), and sea-rail combined transport lines "Wuhan - Qinzhou Port - Southeast Asia" and "Japan/South Korea - Wuhan - Europe/Mongolia". WAE has initially formed an international multimodal transport service network connecting Europe, Central Asia, Japan, South Korea, and ASEAN.

Promote Economy

Provide Logistics Solution for Foreign Trade Enterprises

Provide fast, punctual, safe, stable, green and comprehensive logistics solutions for foreign trade enterprises, help enterprises expand overseas markets, including well-known enterprises as Dongfeng Motor Corporation, Dongfeng Peugeot Citroen Automobile Company, FiberHome Telecommunication Technologies Company, Yangtze Optical Fibre and Cable Joint Stock Limited Company (YOFC), Wuhan EasyDiagnosis Biomedicine Company, Humanwell Healthcare Group, Winner Medical Group, Angel Yeast Company, and etc.

Promote Business Model Innovation

In 2021, the value of goods carried by China-Europe Railway Express (Wuhan) accounted for 18.42% of the total import and export value of Hubei Province to the EU, reached a year-on-year increase of 5.85%. Promote Mercedes-Benz, Volvo, JD, SF Express, L'Oreal and other leading companies to establish supply chain central warehouses in Dongxihu District, Wuhan. In 2021, WAE completed the import of 1,516 Volvo vehicles. At the same time, through the cross-border e-commerce overseas warehouse (9810) and direct export (9710) customs clearance mode, we have helped local 3C products, clothing, shoes and hats, daily necessities and other products export to Europe, and promoted cross-border e-commerce and international postal parcels. The development of new business formats has boosted the construction of Wuhan City as a national trade and logistics center.

Promote Industrial Agglomeration

Vigorously develop the "blocktrain + industry" model, and promote the development of optoelectronics, clothing, wood and other industries in Wuhan. Attract Foxconn and TPV to transfer part of production capacity in coastal cities to Wuhan, promote Decathlon (France) to transfer purchase orders from Jiangsu and Zhejiang to Wuhan Economic and Technological Development Zone, facilitate timber traders from Heilongjiang, Fujian and other places to build processing and distribution center of imported timber in Wuhan.

Assist Global Epidemic Prevention and Control

During the epidemic period, China-Europe Railway Express (Wuhan) continuously delivered epidemic prevention materials to Europe, contributing "Wuhan Strength" to the global fight against the epidemic. In May 2020, a special train for international cooperation of epidemic prevention materials from Wuhan to Belgrade, Serbia was launched. By the end of 2021, a total of 2,382 TEUs and 8,800 tons of epidemic prevention materials have been shipped to Europe.

Affiliated Companies

Wuhan Asia-Europe Logistics Co., Ltd has 6 subsidiaries. 2 wholly-owned subsidiaries: WAE GmbH, Wuhan Asia-Europe Logistics Park Co., Ltd, 1 branch: Wuhan Asia-Europe Cold Chain Management Co., Ltd, 3 holding companies: Wuhan Asia-Europe Supply Chain Management Co., Ltd, Wuhan Asia-Europe Trade Co., Ltd, Wuhan Asia-Europe Land Port Co., Ltd.

WAE GmbH

WAE GmbH is mainly responsible for the operation of eastbound train, the construction of the European logistics distribution network, the development and expansion of the European market, strengthening ties with European governments and enterprises, import and export business.

Wuhan Asia-Europe Logistics Park Co., Ltd

Wuhan Asia-Europe Logistics Park Co., Ltd is mainly responsible for the development, construction and operation management of international logistics park project. By introducing social capital, it will build an international modern comprehensive logistics park integrating train services, international trade, import and export processing, supply chain finance and other formats. Seizing the opportunity of local policy, based on serving China-Europe Railway Express (Wuhan), the international logistics park will promote the coordinated development of railway corridor and industry, drive the development of international logistics, international trade and industrial agglomeration.

Wuhan Asia-Europe Cold Chain Management Co., Ltd

Wuhan Asia-Europe Cold Chain Management Co., Ltd is mainly responsible for cold chain international multimodal transport, refrigerated container and general container supporting business (leasing, returning containers, container inspection, stockpiling, etc.). Relying on China-Europe Railway Express (Wuhan), 210 self-owned refrigerated containers and high-quality container resources, the company is focusing on the cold chain services of China-Europe Railway Express (Wuhan), providing "whole process supervising" services for upstream and downstream firms. Team has rich experience in the management and operation of the entire container chain, and the service outlets radiate to key regions of the Eurasian continent to ensure the container demand of China-Europe Railway Express (Wuhan). As a three-star enterprise of cold chain logistics in Hubei Province, it has transported products in the fields of medicine, electronics, food, etc., and participated in the guarantee of global constant temperature supply chain of key enterprises.

Wuhan Asia-Europe Supply Chain Management Co., Ltd

Wuhan Asia-Europe Supply Chain Management Co., Ltd is mainly responsible for international freight forwarding business, including cargo collection, booking, consignment, warehousing and packaging; supervision of loading, unloading, container loading and unpacking, and distribution; import and export customs declaration, declaration inspection, insurance; domestic multimodal transport business, including railway, road, water distribution business; international multimodal transport business, including overseas railway, road, sea distribution business, international cold chain logistics transportation, provide customers with door-to-door distribution business and private customized moving services from China to.

Wuhan Asia-Europe Trade Co., Ltd

Relying on the advantages of "WAE" brand and logistics corridor, Wuhan Asia-Europe Trade Co., Ltd is mainly responsible for import and export trade business. The company has established stable and in-depth cooperative relations with domestic and foreign suppliers and distributors, providing purchasing and sales, e-commerce, group purchase, and other related services for agricultural products, pre-packaged food, dairy products, health food. The company has extended business to other fields such as building materials, wood, hardware and electrical materials, auto parts, machinery and equipment, electronic products, automobile and auto parts.

Wuhan Asia-Europe Land Port Co., Ltd

Wuhan Asia-Europe Land Port Co., Ltd is mainly responsible for warehousing leasing, container management, landing services for vehicle import projects, LCL services and etc. The company is a modern comprehensive logistics enterprise jointly established by Wuhan Asia-Europe Logistics Co., Ltd and Wuhan Airport Comprehensive Bonded Zone Investment and Development Co., Ltd, providing sea-rail-road multimodal transport services, international trade services, and operating Dongxihu Comprehensive Bonded Zone, and its storage area has reached 30,000 square meters.
